WHY DELL MONITORS?

Whether you are looking for a monitor for specialized color-centric work that requires precise and accurate screen performance, or for typical office use or for entertainment with family, you will find one to meet your needs from Dell's extensive range of monitors for business or home.

Performance

Expect a thoroughly enjoyable visual experience with Dell monitors, thanks to their vivid colors, wide viewing angles, brilliant screen resolution and impressive color accuracy and consistency.

Award winning

The multiple awards and positive reviews for our monitors from around the globe - from leading computing magazines, online portals and consumers alike - vouch for the quality, performance and usability of these monitors.

Comfort

Enjoy the pleasure of working in great comfort with the numerous adjustability options and connectivity for various devices that Dell monitors offer. You can simply focus on your work and give your productivity a boost.

Reliability

Dell monitors give you the same commitment to quality, reliability and service that you expect from Dell - demonstrated through an exhaustive testing regimen, backed by our dedicated technical support staff and Premium Panel Guarantee available with Dell UltraSharp monitors.

Environmental responsibility

Most Dell monitors conform to environmental certifications and are made with environmentally-conscious materials such as post-consumer recycled plastic on the chassis, and BFR/PVC-free laminates in the circuit boards. Built-in energy-efficient features such as PowerNap and Dynamic Dimming in select monitors can help you save on power consumption, so that you can be proud of the environmentally-responsible choice you make.

E1709W

43.18cm (17) W

Entry, Commercial, Wide, VGA

Get a wide-screen experience with this sleek, energy-efficient and compact monitor. Its flat panel design and an optional wall-mount give you maximum area on screen and save on desk space. Its 1440 x 900 resolution and ease of use makes the E1709W wide-screen ideal for your home or home office.

Display

Viewable image size (diagonal)	43.18 cm (17)

UltraSharp Wide, VGA, DVI-D
(HDCP)

Any-angle viewing with a flat LCD panel display makes the U2312HM UltraSharp Dell monitor live up to its name. This multi-award winning monitor offers uncompromising precision and crystal-clear clarity enhancing every feature of the image. Easy connectivity combined with its IPS technology ensures color uniformity. Enjoy maximum viewing options with its height-adjustable stand, tilt, swivel and pivot features or let the monitor act as a media extension for your PC via integrated ports. Ideal for color-critical work at homes or large organizations.
